

LUBRICANTS™

POWER TO PERFORM™

HP DRAWMET 81 CF

DESCRIPTION

This is a semi synthetic chlorine free product can be used for boiler tube pipe bending operation. Can also be used for pilgering operation. It can withstand filtration, centrifuging, etc.

It has been tried out at ABB-ABL Durgapur and has given good results.

PHYSICO-CHEMICAL PROPERTIES

PROPERTIES	TYPICAL VALUES
Appearance	Clear Amber Liquid
Kinematic Viscosity @ 40°C cSt	300 - 550
Flash Point, COC, °C, Min	160
Density @ 29°C, g/Cc	0.970
Four Ball Weld Load, kgs	> 800
Chlorine % Wt	Nil
